

DES Action USA

Online Community Guidelines

DES Action USA is pleased to provide forums for sharing and interacting with others about DES exposure. Viewpoints, opinions and actions expressed in online comments are those of the individuals themselves, and may not reflect DES Action USA policies or positions.

Because of the public nature of social media sites, messages or stories shared on them are public and may be quoted in other DES Action USA publications. We will make every attempt to obtain permission; however, your public post itself implies permission for additional use in support of our mission. DES Action USA provides a private forum for DES Action USA members, the DES Daughter Online Support Group listserv where participants have all agreed to the stipulation, as a condition of participation, to not share any listserv communication outside of the group.

Be Respectful. It's okay to disagree with others but cutting down or insulting individuals will not be tolerated. We will moderate all comments and responses. DES Action USA reserves the right to remove content, including but not limited to posts that are spam, repetition, or profanity, or posts including statements that are defamatory, inappropriate, libelous, unrelated to the discussion, inflammatory or use patently false language. Also subject to removal are posts by aliases or pseudonyms, promotions or sponsorships not related to DES Action USA, and promotions or sponsorships inconsistent with DES Action USA's policies and positions.

Protect Your Privacy. Comments on social media sites are visible to the general public. Protect your privacy and never give out personal information including contacts such as your address, phone number and email address. Also, do not divulge private medical information about yourself and family that you wouldn't want others to know about you. If you have a personal question regarding DES exposure please feel free to email it to info@desaction.org.

Use Information Wisely. Always verify information with a qualified professional before taking action, especially related to medical decisions. Nothing posted on our sites should be construed as medical advice.

Links to Other Websites. DES Action USA is not responsible for the content of any linked website, or any link contained in a linked website, or any changes or updates to such websites. The inclusion of links does not imply endorsement by DES Action USA of that website.

The Bottom Line. DES Action USA reserves the right to delete any comments at any time. Users who persist in violating community guidelines may be barred from posting to our sites.
