

HERE IT IS — THE STORY OF OUR DES EXPERIENCE

Available Now
to Honor the
30th Anniversary
of DES Action

Take a new estrogen promoted by the pharmaceutical companies. Add doctors ready to believe in another miracle drug. Take post-World War II women desperate to have a baby after miscarrying. Continue prescription for years. The result is the tragedy experienced by millions of DES-exposed Mothers, Daughters, and Sons — and perhaps Grandchildren.

This is the story of what we did about the drug disaster that changed our lives.

Written by DES Action Co-Founder Pat Cody with the inclusion of many voices important to us: DES Mothers, Fathers, Daughters, Sons, Lawyers, Researchers and Clinicians.

YES! Please send me _____ copies of **DES Voices: From Anger to Action** at \$12.95 each (which includes shipping), for a total of \$_____.
